DETAILED ACTION

Upon further review of the amendments filed 4-12-02 and 11-14-02, the Official action mailed 10-30-02 (Paper No. 20) and 1-6-03 (Paper No. 23) have been vacated.

Applicants' amendment filed 8-15-02 has been entered. Applicants' request that this application is a continuation-in-part of Application No. 08/774,154 filed 12-26-96, now US Patent 5,905,027, and claims the priority of 60/009,293 filed 12-27-95 is acknowledged. Claim 33 has been amended. Claims 32-49 are pending and under consideration.

Specification

1. The priority paper filed 4-15-02 amending the specification by inserting before the first line "This application is a continued prosecution application...which is a continuation-in-part of US Application 08/774,154...60/009,293...all of which are hereby **incorporated by reference in their entirety**" is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material is not supported by the original disclosure because the oath/declaration does not claim priority of any application. Thus, the amendment filed 4-15-02 introduce new matter into the specification.

Applicant is required to cancel the new matter in the reply to this Official Action.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 32-42 remain rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 3-9 of U.S. Patent No. 5,905,027. Although the conflicting claims are not identical, they are not patentably distinct from each other because, although drawn to different scope, they encompass the same invention and obvious variants thereof and is repeated for the reasons set forth in the preceding Official action mailed 5-16-02 (Paper No. 18). Applicants request holding of this rejection until the pending claims are free of prior art.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1633

5. Claims 32-49 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrase "the binding of chlorotoxin in the tissue" in claim 32 is vague and renders the claim indefinite. It is unclear as to the metes and bounds of what would be considered "binding of chlorotoxin". It is not clear what is bound by the chlorotoxin. Claims 33-49 depend on claim 32 but fail to clarify the indefiniteness.

Conclusion

No claim is allowed.
